We have it on repeated authority, that our property is a valuable one, the last report having been made, when the former Secretary of the Company visited the mines in June 1891, and none of these reports have ever been contradicted. On the other hand the last report of Messrs Cox and Seavers and the report by Mr K. A. Stevens both agree as to the mismanagement of the mine and that our money has been frittered away in useless work. After the failure of the Company's Manager in November 1891 the power of attorney was taken away from him and transferred to Mr Broomfield of Sydney. who however without any funds from our side has not been able to do much in our interest, but the sending of such reports, which from time to time have been very meagrely supplied to him by Mr Gregory upon whom he, according to his own letters, had to rely entirely for information. Since November 1891 we have not had occasion requires. any direct communication from Mr Gregory. to Sydney. The last news supplied to hence to confirm the resolution. Captain Broomfield by Mr Gregory were the results of the mine from 12th to 24th December 1892, and Mr Gregory reported the crushing of 7 tons Quartz by the tributors and yielding a little over 10 oz. of gold, and further the treatment of 31 tons of Tailings by the Watson and Dennys Pan. yielding a profit of about £40. He then mentioned the purchase of another pan costing £125 to be paid for out of the taillags, the working of two pans not costing more than the working of one only, and that he thereby expected a clean profit of £20 per week merely from the use of those pans. Since then we have had no news whatever. These scraps of information however prove to us that our property is being worked and probably has been for the last 18 months, and that the tributors have been making a handsome profit out of the mine, though we Out-Patients, return visits ... 798 have never received any accounts whatever showing what has been going on and giving us the moneys collected and expended. Efforts were made in London in 1892 to refleat the Company there and succeeded so far as to interest the Secretary of a neighbouring gold mine owned in London. Certain offers were made to him: he is at present in Sydney, but letters by last Australian mail inform us that this gentleman has not had time yet to visit our property, but that he will shortly do so and write to It was found impossible to form a new Board, all the previous Directors except one and the Secretary had retired, and it has been decided at an informal meeting of shareholders that the easiest way to deal with the affairs of the Company will be to appoint a liquidator with strong committee to help, so that
